Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Evanisko (US Pat. No 5,394,314).

Regarding claims 1-5, the applicant is advised that claims have been given their broadest reasonable interpretation. In re Pearson, 181 USPQ 641 (CCPA 1974), Evanisko discloses a lamp module, comprising : a lamp holder (20, fig 3) having a structure with a curved arc surface (fig. 3), wherein the ends of the structure are inward converging and a lamp within the curved arc surface structure, wherein light from the lamp spreads out over a linear dimension larger than the length of the lamp after reflected by the curved arc surface (a, fig. 2), wherein the lamp includes a fluorescent tube (col. 2, line 21), wherein the curved arc surface has a fixed radius of curvature, wherein the curved arc surface has a variable radius of curvature (col. 2 lines 1-3).

Allowable Subject Matter

Claims 5-9 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record failed to teach or suggest a combination of the claimed structure which includes a planar light source, a lamp holder having a structure with a curved arc surface, wherein the ends of the curved arc surface structure is inwardly converging, a lamp within the curved arc surface structure, wherein light from the lamp spreads out over a linear dimension larger than the length of the curved arc surface, and light guiding plate attached to the lamp holder, wherein the light-guiding plate has a light-inlet surface and a light-emitting surface, the light-inlet surface faces the lamp and the lamp holder such that light from the lamp entering the light-inlet surface reaches the light- emitting surface to emerge as a planar light source.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pankin (US Pat. No 4,562,517).
